

COLOR WORKS
The Match Box

Using COLORWORKS® Step by Step

1

Select the proper color family deck

2

Choose the field standard that best matches your color

3

Check the back of the field standard for the part number

4

Mix according to formula on Formula Express®

5

Spray out a test panel and check the color

Colorworks® The Match Box is a Chromatically arranged system ideal for Fleet OE applications. This tool is designed for the user to select the proper color with a high degree of flexibility and accuracy. This system is housed in a durable, portable case.
